Overview

Welcome to the shooIQ Box. This is the portal for retailers to manage all your data, your range of products and your credentials.

Please read this documentation to learn how to use this webbased system.

Access to the Box

Web-Browser

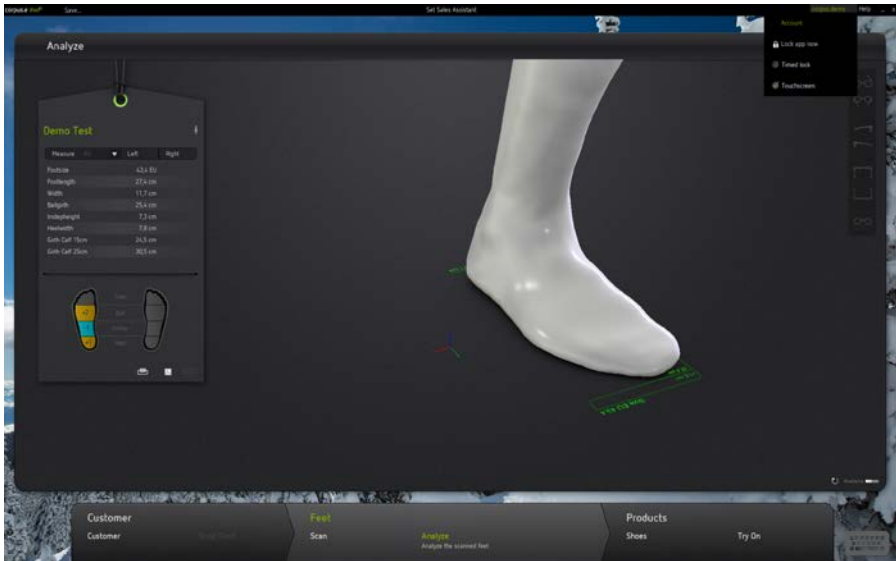

Open a Web-Browser and type

<https://box.shooiq.com>

In the address field to access the shooIQ-Box. A Login-Page should appear which asks you for your credentials. Please type in your account and password data. These are the same credentials like you are using within all our software.

shooIQ Software

Alternatively, you can also access the shooIQ Box from the shooIQ Software. When you start the software for using the scanner, the first page will open with the shooIQ Box portal. You can always come back to the Portal by clicking "Your Name" and "Account" on the top right in the Menu Bar.

Operation

Login

Login with your credentials. These are always the same credentials you are using within our different software tools.

Here you can also select your preferred language.

Navigation

On the left-hand-side you'll always find the different categories.

In the figure on the left there is actually the module for organizing your Product Range selected.

Click on "Account" to change your password or type in your contact information. From "Downloads" you can access the Download Center to get a copy of the shoolQ Software or different Manuals.

Product Range

Organize your Portfolio of Products

The module „Portfolio“ let you organize your range of products. In the view below you see the shoes which will appear in the shoolQ software after you've started it.

Please read the following description to delete or add shoes and to select your available sizes.

Portfolio

Manage your range items. To add shoes click on "Add Shoes" on the left side. Click on a size to activate or deactivate it.

My Catalogs

- Outdoor
- Ski** (13)

Icon	Manufacturer	Name	MFR ID	System
	HEAD	Advant Edge 105	-	CM
	HEAD	Raptor 120 S RS	-	CM
	NORDICA	Speedmachine 100	-	CM

DELETE

Add Shoes

To add shoe models to your range of goods please select the catalogue in which you want to place them. In the example above there is a "Ski" catalogue selected, which is indicated by a small skier icon. Beside that there is the quantity of shoe models indicated which you already have in your catalogue.

shooIQ Workbook

To open the shooIQ Workbook of available and 3D scanned shoe models please select “Add Shoes” in the left-handed navigation. The shooIQ Workbook should be opened like in the figure below.

Here you'll see, dependant on which license you've booked, the available 3D measured shoemodels.

Please click on a brand to select the brands catalogue. Here you'll see all actual shoemodels of the brand including the order numbers.

Select a shoemodel by clicking on it. Multiple models can be selected by holding the shift- or ctrl-Key. You can add the selected models by clicking on the "Add"-Button on the bottom of the window.

*„Gray“ Shoemodels:
already in your range*

Shoes, which you already have added to your range, are grayed-out to avoid to add them twice.

Coming Soon

Some models are indicating „Coming Soon“. That means that we've already registered the models and 3D scanning is planned.

Shoe is not available

If there are shoes or brands missing which are important in your range, please contact your rep. We can 3D scan the internal of nearly every shoe so your rep can organize the scan.

*Closing the shoolQ
Workbook*

You can close the shoolQ-Workbook by clicking in the navigation bar on the left (for example on „Portfolio“) or you can press the button "Close" on the bottom of the window.

Remove Shoes

*Select „Shoemodel“
and click „Delete“*

You can remove shoes from your portfolio by selecting the model in your portfolio view and by pressing on the "Delete" button. The shoe can be re-added as you want as long as it is available in the shoolQ-Workbook.

By holding Shift- or Ctrl-Keys you can also select several models and delete them at once.

Shoe Size Administration

Available Ranges and your selection

In the list of your portfolio there are the available and selected sizes indicated by a border. If the size is available in your range, then make sure that it is “green”. By clicking on the size-Button you can remove it from your range, another click will activate it again. All “gray” sizes are inactive in your account.

The screenshot shows the 'Portfolio' page in the shoo10 application. A table lists shoes with columns for 'SKU', 'Manufacturer', 'Name', 'MFR ID', and 'System'. The 'Size' column contains buttons for various sizes. A red box highlights the size buttons for the 'Repton 120 S RS' shoe, showing sizes 22 through 30. The buttons for sizes 22, 23, 24, 25, 26, 27, 28, 29, and 30 are green, indicating they are active. The button for size 21 is gray, indicating it is inactive. The button for size 31 is also gray.

SKU	Manufacturer	Name	MFR ID	System	Size
Outdoor	HEAD	Repton 120 S RS	--	CM	22, 23, 24, 25, 26, 27, 28, 29, 30, 31
SAI	HEAD	Advent Edge 105	--	CM	23, 24, 25, 26, 27, 28, 29, 30, 31
	NORDICA	Speedmachine 100	--	CM	23, 24, 25, 26, 27, 28, 29, 30, 31

Activate and Deactivate your Sizes

By clicking on a size you can easily activate or deactivate them.

shoolQ Software:

*Update your Portfolio
when restarted*

The shoolQ software updates your portfolio when starting the software and logging in. If you have changed something in your range in the Box, please restart the shoolQ software to see the changes.

Account

Select the Account module in the navigator on the left hand side to change contact data or your password.

Be aware that when you changed the password, it is changed for all other software you are using to login within the shoolQ-cloud.

Downloads

In this area you can download the newest version of the shoolQ-Software and several Manuals to use the systems.

Installing the software on different tablets and computers helps you to efficiently organize your sales process. Login with the same credentials on every system and you'll have access to your data wherever you are.
