Manually installing the pressure driver (TexiSense)

The drivers for your pressure-plate can be installed - or re-installed - in few simple steps:

Step-by-step guide

 Open the sub-folder "drivers" then "texiSense", right click on the ZIP-file "USB-COM-Driver..." and then select "Extract all ..." to unzip the file:

> This PC > Local Disk (C:)	> Pr	ogram File	es > sh	noolQ	drive	s → te	xiSens	e >
Name ^			D	ate moo	lified		Тур	e
🔽 💼 USB-COM-Driver_v1	21		<u></u>	s (00 (00)	דר. רו רו		Cor	mpressed
*	*	O	E)	Ŕ	靣			
*								
*	-	Open				Enter		
*	0 <u>-</u>	Open w	vith				>	
	Ø	Open in new window Extract All						
5-	c							
	\Diamond	Pin to S	Start					

 Right-Click on the file "VCP_Setup_v1.3.1_x64" and then select "Run as administrator"

4. Follow the On-Screen instruction by pressing "Next"

Device Driver Installation Wizard						
	Welcome to the Device Driver Installation Wizard! This wizard helps you install the software drivers that some computers devices need in order to work.					
	< Back Next > Cancel					

5. OPTIONAL:

In case the driver was (at least partially) installed in the past, you may see the following screen => Make sure to select the Option "*Repair*"

InstallShield Wizard	×		
Welcome Modify, repair, or remove the program.	A.		
Welcome to the Virtual COM Port Driver Setup Maintenance program. This p modify the current installation. Click one of the options below.	rogram lets you		
Select new program features to add or select currently installed remove.	d features to		
 Repair Reinstall all program features installed by the previous setup. 	Reinstall all program features installed by the previous setup.		
© <u>R</u> emove Remove all installed features.			
< <u>B</u> ack <u>N</u> ext >	Cancel		

6. Finish the installation until you see the following screen which confirms the driver was installed correctly:

Device Driver Installation Wizar	d					
	Completing the Device Driver Installation Wizard					
	The drivers were successfully installed on this computer.					
	Driver Name	Status				
	STMicroelectronics (usb	Device Updated				
	< <u>B</u> ack	Finish Cancel				

In case of problems please check your machine for custom AntiVirus-Software ... () => Make sure that your AV-Software is configured correctly and does not interfere with the driver-installation, e.g. by temporarily disabling it
